Web Applications Testing — Assignment 5

Go to Guru99 Bank at http://demo.guru99.com/v4/

1. Create your own account
2. Log in
3. Manually create a new customer using the New Customer link

Then, test the following BDD scenario

In Java
Scenario: Check Customer
  Given the user has logged in with user id "mngr40773" and password "zybEqeq"
  And the user is on the Edit Customer page
  When he submits "73935" as customer id
  Then ensure the customer name is "John"
  And ensure the customer gender is "male"
  And ensure the customer DoB is "1960-01-01"

In Python
Scenario: Check Customer
  Given the user has logged in with user id mngr40773 and password zybEqeq
  And the user is on the Edit Customer page
  When he submits 73935 as customer id
  Then ensure the customer name is John
  And ensure the customer gender is male
  And ensure the customer DoB is 1960-01-01

Please replace those red text with your own data.

This assignment is optional.
